This catalogue is almost wholly the work of children in the Practical Arts School, grades 7, 8, and 9, the type setting being done by the boys and the binding by the girls. The photographs of the Normal School buildings and the class day procession, and the cover (designed by Willis B. Anthony) were hand colored by members of various classes, largely by seventh and eight grade girls.

State Normal School at Fitchburg

Historical Sketch

The school opened in 1895 with four teachers and forty-six pupils in a rented building. In 1912 there are thirty-one teachers, two hundred ninety-seven normal students, and seven hundred children, with buildings and grounds worth nearly half a million dollars.

The school has graduated:

609 from Elementary Course.
181 from Advanced Course.
19 from Kindergarten Course.
139 from One Year Courses.

Location

Fitchburg, Mass., is a city of nearly 40,000 inhabitants, beautifully situated among the hills between Mt. Monadnock and Mt. Wachusett. Its pure air and water and excellent drainage rank it among the most healthful of New England cities. It has a fine public library and art museum.

Buildings and Grounds

Normal Hall, the main building, of thirty rooms, a gymnasium with dressing rooms and shower baths, and a study hall.

Miller Hall, the boarding hall. Rooms arranged in suites, heated by steam and lighted by electricity. A night watchman is employed. Many students who board at Miller Hall room in houses near by. To secure room, either in Miller Hall or in one of the houses connected with it, an early application is necessary.

Edgerly School, a twelve-room building for grades 1 to 6. Used for observation and practice.

Practical Arts School, a building for grades 7 and 8, containing twelve schoolrooms and various shops, as well as an equipment for household arts. Used for observation and practice. In this building is the Assembly Hall, seating 700. It is provided with a large stage and dressing rooms, and equipped for moving pictures.

Day Street School, a twelve-room building for grades 1 to 6. Used for observation and practice. Ten minutes' walk from Normal Hall.

Highland Avenue School, a four-room building for grades 1 to 3. Used for observation and practice. Two minutes' walk from Normal Hall.

The buildings are ornamented by works of art. A booklet describing them will be sent upon application.

The grounds cover several acres, giving ample opportunity for outdoor sports and games.

Courses of Study for Pupils in the Schools of Observation and Practice

Kindergarten.—A two years' course. Pupils admitted in order of application. Must be three and one-half years of age.

General Course.—Grades 1 to 6. Pupils admitted in September to Grade 1. Must be six years of age.

Differentiated Courses.—Grades 7 and 8.

Differentiated Courses Offered in Grades Seven and Eight

A pupil who completes in a satisfactory manner any one of the five courses will be admitted to the High School.

This catalogue is almost wholly the work of children in the Practical Arts School, grades 7, 8, and 9, the type setting being done by the boys and the binding by the girls. The photographs of the Normal School buildings and the class day procession, and the cover (designed by Willis B. years of elementary course, an advanced course of four years, a kindergarten course, a special course of one year for experienced teachers, and a special course of one year for college graduates. Students are also admitted to special work in any department of the school, such as drawing, music, manual training and domestic science. The new manual arts school offers to young men a splendid opportunity to prepare to teach in the grammar grades or in the different lines of industrial work. Graduates of any course who meet the requirements of excellence in personality, in scholarship, and in teaching ability, are in great demand.

State Normal School, Fitchburg, Mass.

UNIVERSITY OF ILLINOIS
PRESIDENT'S OFFICE

The nine normal schools in Massachusetts graduate annually only about one-third of the number of new teachers needed in the state. Teachers' salaries are now much higher than five years ago, and every year they are increasing.

The Fitchburg Normal School offers five courses,—a general two

Literary Course—30 Hours per Week.

12 1-2 hours to Literature, Composition, Spelling, Penmanship, Mathematics, Geography, History, and Science.

7 1-2 hours to Physical Training, Music, General Exercises, and Recesses.

5 hours to a Modern Language.

5 hours to Drawing, Designing, Printing, Making, and Repairing, (Household Arts for Girls).

Commercial Course—30 Hours per Week.

12 1-2 hours to Literature, Composition, Spelling, Penmanship, Mathematics, Geography, History, and Science.

7 1-2 hours to Physical Training, Music, General Exercises, and Recesses.

10 hours to Typewriting, Shorthand, Bookkeeping, Business Arithmetic, and Related Design.

Practical Arts Course For Boys—30 Hours per Week.

12 1-2 hours to Literature, Composition, Spelling, Penmanship, Mathematics, Geography, History, and Science.

7 1-2 hours to Physical Training, Music, General Exercises, and Recesses.

10 hours to Drawing, Designing, Printing, Making, and Repairing.

Household Arts Course For Girls—30 Hours per Week.

12 1-2 hours to Literature, Composition, Spelling, Penmanship, Mathematics, Geography, History, and Science.

7 1-2 hours to Physical Training, Music, General Exercises, and Recesses.

10 hours to Drawing, Designing, and Household Arts.

Grammar School Course—25 Hours per Week.

The same as in other grammar schools in the city.

Two hours of home work per week are required in Grade 7, and five hours in Grade 8.

The first four courses are conducted in the Practical Arts School. The Grammar School Course is given at the Day Street School only. But 32 pupils can be admitted to Grade 7 in each course. No course will be organized for less than 16 pupils.

Courses of Study for Normal School Students

A diploma is granted for each of the following regular courses:

Kindergarten Course.—Two years. In addition to regular requirements for admission the candidate should be able to play the piano and to sing.

Elementary Course.—Two years. Fits for teaching in grades below the high school, particularly in grades 1 to 6.

Kindergarten-Primary Course.—Two or three years. Fits for kindergarten or primary grades. There is a great demand for primary teachers who have had kindergarten training.

Advanced Course.—A post-graduate course of two years, one spent in teaching on salary under the supervision of the normal school, the other in study at the school. Graduates from this course command excellent positions and large salaries, especially in grades 7 and 8.

Course for Grammar Masters.—A two years' course open to young men. The call for graduates is much greater than the supply.

Practical Arts Course.—A two years' course open to young men. Fits teachers for manual training and various forms of industrial work.

A certificate is granted for each of the following courses:

One Year Course for Teachers.—Teachers who bring satisfactory evidence of successful work are admitted to this course without examination.

One Year Course for College Graduates.—Open to college graduates and others of maturity and experience. No examination required.

Special Music Course.—One or two years. For those intending to become supervisors of music.

Library and Reading Room

A reference library of nearly 8,000 volumes, besides many reports and text-books.

The leading periodicals are found in the reading room.

Concerts, Recitals, Plays and Lectures

These occur at frequent intervals, and are usually free to all normal students. At the assembly, which is held daily at 11.15, brief addresses are given by members of the faculty and by visitors to the school. The old-fashioned "speaking of pieces" often forms a part of the exercises.

A booklet in regard to the social life at the school may be had upon application.

Requirements for Admission

I. Candidates for admission to any one of the Massachusetts State normal schools must have attained the age of 17 years complete, if young men, and 16 years, if young women; must be free from diseases or infirmities which would unfit them for the office of teacher, and must present certificates of good moral character. They must also present detailed records of scholarship from the principal of the high school, or other school in which preparation has been made, showing the amount of time given to individual subjects and the grade therein.

II. Candidates must present by examination or certificate satisfactory evidence of preparation in the following subjects, 14 units being the requirement for admission. A unit represents a year's study in any subject in a secondary school, constituting approximately one-quarter of a full year's work.

A. *Prescribed subjects.* Three units.

(1) English literature and composition . . . . . 3 units

B. *Elective subjects.* At least 7 units from the following subjects:

(2) Algebra . . . . . 1 unit
(3) Geometry . . . . . 1 unit
(4) History, Ancient, Mediæval and Modern, English or American, including Civics . . 1 unit
(5) Latin . . . . . 2 units
(6) French . . . . . 2 units
(7) German . . . . . 2 units
(8) Drawing* . . . . . 1 unit
(9) Physics . . . . . 1 unit
(10) Chemistry . . . . . 1 unit
(11) Biology, Botany or Zoology* . . . . . 1 unit
(12) Physical Geography* . . . . . 1 unit
(13) Physiology and Hygiene* . . . . . 1 unit

* Half units in these subjects will also be accepted.

For the present, the topics included within the foregoing subjects will be such as are usually accepted by Massachusetts colleges for entrance. The outlines submitted by the College Entrance Examination Board (Sub-station 84, New York City) will be found suggestive by the high schools.

C. *Additional subjects.* At least four additional units from any of the foregoing subjects or other subjects approved by the secondary school towards the diploma of graduation of the applicant.

III. *Examinations.* Each applicant for admission, unless specifically exempted by the provisions of sections IV and V must pass entrance examinations in the subjects required under "A" and "B." Examinations in these subjects will be held at each of the normal schools in June and September of each year. Candidates applying for admission by examination will present credentials or certificates from their schools to cover the requirements under "C" and will not be given examinations in these subjects.

IV. *Division of examinations.* Candidates for admission to the normal schools may take all of the examinations at one

time, and any or all of them may be taken either in June or in September. If the examinations are divided, the candidate will receive no credit for the first examination, unless he passes in at least five of the ten units required. Examinations may not be divided between different years.

V. *Admission on certificates.* Candidates from public high schools which are on the certificate list of the New England College Entrance Certificate Board, or from public high schools approved by the State Board of Education, for this purpose, may be exempted from examination in any of the subjects under "A" and "B" by the principal of the normal school on the basis of a record of at least 80 per cent. or B in such subject during the last year in which such subject has been pursued, when the principal of the high school shall have certified his belief that the candidate is able to do satisfactory work in the normal school. Such candidates will present credentials for the subjects under "C."

VI. *Admission as special students.* Graduates of normal schools and colleges and persons having had satisfactory experience in teaching may be admitted as special students, under such regulations as the Board may prescribe.

Dates of Examination

The first examination in 1912 will be held at 9 A. M., on Thursday and Friday, June 20 and 21, at the normal school.

The second examination in 1912 will be held at 9 A. M., on Tuesday and Wednesday, September 3 and 4 at the normal school.

Candidates are advised to present themselves, if possible, at the first examination.

Alumni Loan Fund

In June, 1906, an alumni loan fund was founded. This is increased yearly by contributions from the alumni. Subscriptions from others also will be gladly received. To students needing help, amounts not exceeding one hundred dollars annually will be loaned, such amounts to be repaid with interest after graduation.

Board and Rooms

Rooms are reserved at Miller Hall and in the houses connected therewith in order of application upon deposit of four dollars with the clerk of the school. No room will be reserved until this deposit is made. The four dollars will be credited for the first week's board in the fall, but will not be refunded in case a student decides not to enter. No room will be held for a student after the opening of the school in the fall unless special arrangements are made and payment made for the rent of the room.

General Information

Tuition is free to all residents of Massachusetts. Non-residents of the State are required to pay at the beginning of each half-year session the sum of twenty-five dollars.

Books are loaned to the students free of charge.

Season tickets, at greatly reduced rates, can be obtained from any of the railroads entering Fitchburg.

State aid to a limited extent may be granted to students, after they have been in attendance for at least one term. Applications for this aid are to be made to the principal in writing, accompanied by a certificate from a person competent to testify, stating that the applicant needs the aid. Such

aid is not furnished pupils whose homes are in Fitchburg, or to students from outside the state.

Work can usually be found by those who desire to earn part of their expenses.

For catalogues, specimen examination questions for admission, and such additional information as may be sought, address the principal at Fitchburg.
